Re: OPCA Member Renewal - 2019 membership year

Thank you for your renewal payment for the 2019 membership year. Below is your decal for your membership plaque.

Associations like the OPCA that represent a specific industry are extremely important as we represent and protect your interests with respect to regulatory issues. Your membership and support helps further our continued efforts and initiatives such as lobbying to government, developing recommended practices and industry specific training. We also have a number of member benefits including promotion of your company on our website and national publication circulated across Canada. Each year we publish a special member directory issue of "The Canadian Petroleum Contractor". The OPCA also partners with insurance companies to offer special rates for liability and pollution insurance as well as healthcare benefits.

Thank you again for your continued support!

Yours truly,

ONTARIO PETROLEUM CONTRACTORS ASSOCIATION

A handwritten signature in cursive script that reads "Michelle Rae".
